

| Boat checklist Pre-Launch May 2021 | |
|---|--|
| | |
| | |
| Trailer/ wheels are in ok condition + jockey wheel & tow coupling moves. | |
| Engine free from debris around prop e.g. spin freely/note any damage to propellor. | |
| Check engine oil levels & fuel filter for water. Depth sounder is present & undamaged if damaged report to equipment manager. | |
| Trunk is up & deck isn't full of water. Drain plug is tight and sealed. | |
| Transom/engine bolts are not loose. | |
| Tubes are blown up. | |
| Check batteries for corrosion on connections | |
| Turn isolator on & put key in ignition, test engine turns - if engine runs do not run for more than 5 seconds without water. | |
| Check VHF & GPS turn on and working, turn off once complete till engine is running in water to save battery power. | |
| Check steering- if stiff add grease through nipple on steering column | |
| Raise engine leg ready for launching - check seals around rams for leaks | |
| Check flares, anchor & warp are ok and useable | |
| Hurray boat is ready for sea! Aye Aye captain lets go. All aboard! | |
| Any Defects or Concerns please raise to Equipment/ boat maintenance managers. Thankyou | |
